About Me

Hi! I'm Mehedi Hasan, a WordPress & Theme Developer with over 3 years of experience transforming business ideas into high-performance web solutions. I enjoy solving complex problems through core PHP, custom plugin development, and clean UI implementations—whether it's building a website from scratch, optimizing speed, or seamlessly integrating APIs.

-Building websites and writing clean code isn't just my job, it's something I genuinely enjoy and am always eager to learn more about.

Work Experience

Backbencher.studio - WordPress Developer

WordPress theme & Plugin developer Jul-2025 - February 2026

- Built and customized WordPress themes and plugins from scratch based on specific client requirements.
- Modified and extended existing third-party plugins to add complex, tailor-made functionalities.
- Led technical meetings directly with clients to gather requirements and ensure project alignment.

Softcrafty - WordPress Theme Developer

Dhaka, Bangladesh (Remote)

WordPress Theme Developer · Dec 2024 – Jun 2025

- Successfully converted static HTML templates into highly dynamic, responsive, and fully functional WordPress themes from scratch.
- Developed 12+ premium themes for ThemeForest and multiple bespoke themes for direct clients.
- Built custom Elementor widgets and add-ons from scratch using PHP and JavaScript.
- Creative Business Agency WordPress Theme [Zylo Theme](#)
- Creative WordPress Theme [Medice Theme](#)
- Creative WordPress Theme [Tourgo Theme](#)

Service-Based Digital Agency

Dhaka, Bangladesh (On-site)

WordPress Website Designer · Aug 2023 – Dec 2024

- Designed real client projects from Fiverr and Upwork, focusing on complete WordPress setups, premium theme configurations, and essential plugin integrations.
- Turned client briefs into clean, user-friendly designs with a focus on real-world usability.
- Managed multiple projects simultaneously, balancing strict deadlines with high-quality output.
- Learned to adapt quickly and improve through feedback in a fast-moving, high-volume agency setup.
